Redefining POS Elegance

We're accustomed to the best user experience with our mobile phones. Sleek design, intuitive interface, convenience and portability. So when it comes to processing payments, why subject customers and staff to old fashioned, outdated point of sale terminals?

This is why PAX Technology developed the A-series family of beautiful Android payment terminals. Our flagship A920 brings elegance and style to each paying customer. Behind the large HD color display, PAX's striving for compact design hides a thermal printer and high capacity battery for continuous operations throughout the day.

A wide range of advanced connectivity options are supported, as well as inbuilt NFC contactless, electronic signature capture and massive amounts of memory to enable exceptionally fast processing of applications.
